

EMS Policy

“Appfabs is committed to conducting its software services in an environmentally responsible manner by identifying, managing, and reducing the environmental impacts of its activities, products, and services. We are committed to the protection of the environment, including the prevention of pollution, sustainable resource usage, and responsible management of e-waste and energy consumption. We strive to reduce our environmental footprint by integrating sustainable practices, setting environmental objectives. We are committed to fulfilling all applicable legal and regulatory requirements and other compliance obligations related to environmental aspects. We strive for continual improvement of our Environmental Management System to enhance environmental performance through risk assessment, adoption of sustainable practices, employee awareness, and stakeholder engagement.”
